

How to make a Fleece Tie Blanket

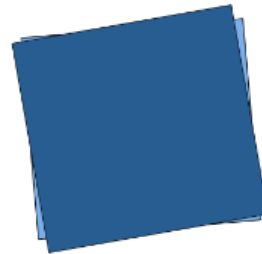

STEP 1

Go to your local thrift/craft store.
Purchase 2 pieces of fleece
(we recommend 6' long).

STEP 2

Bring the fleece to your
workstation and place the
pieces on top of each other.

STEP 3

Trim the excess off the
edges so both pieces of
fleece are the same size.

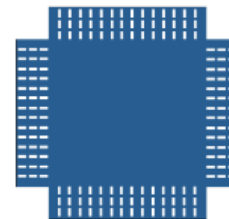

STEP 4

Cut a 4in x 4in square
out of each corner.

STEP 5

Make a 4in cut every 2in
on all 4 sides of the fleece.

STEP 6

Tie each stacked tassel together.
We recommend double knots.
